Canadian Intellectual Property Office

Canada

Trade-marks Journal
Vol. 63 No. 3234

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

SERVICES

Class 37

(1) Construction of wind turbine generators; dissemination of information related to the construction of wind turbines; information related to servicing, construction, repair, and installation services for wind and hydro-electric power plants, nuclear power plants, condensing power plants, thermal power plants, electric power plants that use pumped storage and compressed air storage for the production and distribution of energy, oil-fired and coal-fired power plants and gas turbine power plants, nuclear reactors, turbine generators, current generators, power generators, electrical power generators, hydraulic generators, wind power generators, wind turbine generators for the production of wind energy, hydraulic installations, wind installations, motors and engines with the exception of motors and engines for land vehicles, namely motors and engines for industrial machinery, electric motors for machines, hydraulic motors, namely steam marine engines, pumps, namely hydraulic pumps, centrifugal pumps, machines, namely water pumps, turbines, namely wind turbines, electric turbines, hydraulic turbines, hydraulic controls for turbine generators, motors and engines for industrial machinery, hydraulic pumps, wind turbines, hydraulic installations, namely marine turbines for generating wind energy using water, wind installations, control devices, namely control panels for turbine generators, motors and engines for industrial machinery, hydraulic pumps, wind turbines, hydraulic installations, namely marine turbines for generating wind energy using water, wind installations, electric compressors, compressors for industrial machinery, voltage regulators for electrical energy, steam superheaters for industrial use, control systems and mechanisms for turbine generators, motors and engines for industrial machinery, hydraulic pumps, wind turbines, hydraulic installations, namely marine turbines for generating wind energy using water, wind installations.

Class 39

(2) Transport and delivery of goods by boat, truck, train; warehousing and storage, namely warehousing and storage services; distribution and transfer of electricity, energy, air, heat, cold, gas, petroleum, and fuels for power generation, namely utility services for electricity and natural gas generation and distribution; transport by oil pipeline and pipeline, namely transport via pipeline and oil pipeline of oils and gases.

CLAIMS

Priority Filing Date: FRANCE September 19, 2013, Application No: 134033707 in association with the same kind of goods and in association with the same kind of services. Proposed Use in CANADA on goods and on services

Class 09

(1) Apparatus for recording, transmission, reproduction, storing and processing of data, information, sound and images namely computer, video and projection screens, computers and computer workstations namely computer terminals; telecommunication apparatus and device for receiving, processing and transmission of data, information, sound and images namely computers, lap top computers, modems, tablet computers, telephones, mobile phones, smart phones, fax machines, switchboards, radio communication devices namely radio transceivers and radio signal tuners, radio transmitters and receivers; touch sensitive electronic computer screens; touch sensitive electronic computer screens for educational purposes in the medical field, secure communication namely secure email services and secure telephone communications; touch sensitive electronic computer screens for visualisation of text, sound and digital and photographic images; touch sensitive electronic computer screens for e-learning; encoded magnetic cards namely cards for encryption, decryption and authentication of data namely texts, sound, images namely medical, digital and photographic images; SD-cards for computers, lap top computers, modems, tablet computers, telephones, mobile phones, smart phones, fax machines, switchboards, radio communication devices namely radio transceivers and radio signal tuners, radio transmitters and receivers; Secure Digital (SD) cards for encryption, decryption and authentication of data namely texts, sound, images namely medical, digital and photographic images; computer programs for recording, transmission, reproduction, storing and processing of encrypted, decrypted and authenticated data namely texts, sound, images namely medical, digital and photographic images; computer programs and computer operating system software for medical purposes namely computer software for medical imaging, diagnostics, Radiology Information Systems [RIS], Picture Archiving and Communication System [PACS], planning of medical treatment, Admission, Discharge and Transfer [ADT], order-entry, scheduling, patient throughput and documentation, reporting, follow-up, statistics and billing; computer programs for patient data, namely computer software for collecting, storing, processing, transmission and monitoring data namely texts, statistics, sound, images namely medical, digital and photographic images about patients in electronic medical records; computer programs for collecting, storing and monitoring radiation doses in the medical field; computer programs and computer hardware for medical image processing, managing of images, archiving and communication of medical images; computer programs and computer hardware for visualisation of text and sound namely information about patients and patients' medical files in electronic medical records, voice and text messages, and digital and photographic images, and enabling patients and medical staff to send text messages via chat rooms; computer programs for education in the medical field enabling the users to perform simulated operations, general examinations and analysis of the human body, computer programs for education in the field of secure communication containing topics on secure transmission of text, sound and image data namely encryption of text, voice and images data enabling users to perform secure telephone calls, send secure text messages and transfer data in the form of text, still images and moving images to other telecommunication devices namely walkie-talkies, smart phones, computer tablets, smart, telephone and computer terminals; computer programs for pre-surgical planning, namely computer software for preparing and planning operations; computer programs for time reservations and time planning to be used in electronic agendas, diaries and organizers; digital cameras for medical use; screens for medical purposes and touch sensitive electronic screens for medical purposes namely computer display screens; image management systems for medical purposes namely computer software for digital images management used in the field of x-ray, ultra sound, magnetic resonance imaging (MRI), digital images; image management systems namely computer utility file storage programs and computer software for image processing used for archiving and for sending via voice and text messaging, of medical images in the field of x-ray, ultra sound, magnetic resonance imaging (MRI), digital images.

(2) Apparatus for recording, transmission, reproduction, storing and processing of data, information,

sound and images namely computer, video and projection screens, computers and computer workstations namely computer terminals; telecommunication apparatus and device for receiving, processing and transmission of data, information, sound and images namely computers, lap top computers, modems, tablet computers, telephones, mobile phones, smart phones, fax machines, switchboards, radio communication devices namely radio transceivers and radio signal tuners, radio transmitters and receivers; touch sensitive electronic computer screens; touch sensitive electronic computer screens for educational purposes in the medical field, secure communication namely secure email services and secure telephone communications; touch sensitive electronic computer screens for visualisation of text, sound and digital and photographic images; touch sensitive electronic computer screens for e-learning; encoded magnetic cards namely cards for encryption, decryption and authentication of data namely texts, sound, images namely medical, digital and photographic images; SD-cards for computers, lap top computers, modems, tablet computers, telephones, mobile phones, smart phones, fax machines, switchboards, radio communication devices namely radio transceivers and radio signal tuners, radio transmitters and receivers; Secure Digital (SD) cards for encryption, decryption and authentication of data namely texts, sound, images namely medical, digital and photographic images; computer programs for recording, transmission, reproduction, storing and processing of encrypted, decrypted and authenticated data namely texts, sound, images namely medical, digital and photographic images; computer programs and computer operating system software for medical purposes namely computer software for medical imaging, diagnostics, Radiology Information Systems [RIS], Picture Archiving and Communication System [PACS], planning of medical treatment, Admission, Discharge and Transfer [ADT], order-entry, scheduling, patient throughput and documentation, reporting, follow-up, statistics and billing; computer programs for patient data, namely computer software for collecting, storing, processing, transmission and monitoring data namely texts, statistics, sound, images namely medical, digital and photographic images about patients in electronic medical records; computer programs for collecting, storing and monitoring radiation doses in the medical field; computer programs and computer hardware for medical image processing, managing of images, archiving and communication of medical images; computer programs and computer hardware for visualisation of text and sound namely information about patients and patients' medical files in electronic medical records, voice and text messages, and digital and photographic images, and enabling patients and medical staff to send text messages via chat rooms; computer programs for education in the medical field enabling the users to perform simulated operations, general examinations and analysis of the human body, computer programs for education in the field of secure communication containing topics on secure transmission of text, sound and image data namely encryption of text, voice and images data enabling users to perform secure telephone calls, send secure text messages and transfer data in the form of text, still images and moving images to other telecommunication devices namely walkie-talkies, smart phones, computer tablets, smart, telephone and computer terminals; computer programs for pre-surgical planning, namely computer software for preparing and planning operations; computer programs for time reservations and time planning to be used in electronic agendas, diaries and organizers; apparatus for recording, transmission, reproduction, storing and processing of data, information, sound and images namely computer, video and projection screens, computers and computer workstations namely computer terminals; telecommunication apparatus and device for receiving, processing and transmission of data, information, sound and images namely computers, lap top computers, modems, tablet computers, telephones, mobile phones, smart phones, fax machines, switchboards, radio communication devices namely radio transceivers and radio signal tuners, radio transmitters and receivers; touch sensitive electronic computer screens; touch sensitive electronic computer screens for educational purposes in the medical field, secure communication namely secure email services and secure telephone communications; touch sensitive electronic computer screens for vizualisation of text, sound and digital and photographic images; touch sensitive electronic computer screens for e-learning; encoded magnetic cards namely cards for encryption, decryption and authentication of data namely texts, sound, images namely medical, digital and photographic images; SD-cards for computers, lap top computers, modems, tablet computers, telephones, mobile phones, smart phones, fax machines, switchboards , radio communication devices namely radio transceivers and radio signal tuners, radio transmitters and receivers; Secure Digital (SD) cards for encryption, decryption and authentication of data namely texts, sound, images namely medical, digital and photographic images; computer programs for recording, transmission, reproduction, storing and processing of encrypted, decrypted and authenticated data namely texts, sound, images namely medical, digital and photographic images; computer programs and computer operating system software for medical purposes namely computer software for medical imaging, diagnostics, Radiology Information Systems [RIS], Picture Archiving and Communication System [PACS], planning of medical treatment, Admission, Discharge and Transfer [ADT], order-entry, scheduling, patient throughput and documentation, reporting, follow-up, statistics and billing; computer programs for patient data, namely computer software for collecting, storing, processing, transmission and monitoring data namely texts, statistics, sound, images namely medical, digital and photographic images about patients in electronic medical records; computer programs for collecting, storing and monitoring radiation doses in the medical field; computer programs and computer hardware for medical image processing, managing of images, archiving and communication of medical images; computer programs and computer hardware for visualisation of text and sound namely information about patients and patients' medical files in electronic medical records, voice and text messages, and digital and photographic images, an enabling patients and medical staff to send text messages via chat rooms; computer programs for education in the medical field enabling the users to perform simulated operations, general examinations and analysis of the human body, computer programs for education in the field of secure communication containing topics on secure transmission of text, sound and image data namely encryption of text, voice and images data enabling users to perform secure telephone calls, send secure text messages and transfer data in the form of text, still images and moving images to other telecommunication devices namely walkie-talkies, smart phones, computer tablets, smart, telephone and computer terminals; computer programs for pre-surgical planning, namely computer software for preparing and planning operations; computer programs for time reservations and time planning to be used in electronic agendas, diaries and organizers; digital cameras for medical use; screens for medical purposes and touch sensitive electronic screens for medical purposes namely computer display screens; image management systems for medical purposes namely computer software for digital images management used in the field of x-ray, ultra sound, magnetic resonance imaging (MRI), digital images; image management systems namely computer utility file storage programs and computer software for image processing used for archiving and for sending via voice and text messaging, of medical images in the field of x-ray, ultra sound, magnetic resonance imaging (MRI), digital images.

Class 10

(3) Medical image processing apparatus namely medical image processors, medical ultrasound apparatus, medical x-ray apparatus, apparatus for Digital X-ray Radiogrammetry (DXR), rigid and flexible medical endoscopes, magnetic resonance imaging (MRI) apparatus for medical use, nuclear medicine diagnostic imaging apparatus.

(4) Medical image processing apparatus namely medical image processors, medical ultrasound apparatus, medical x-ray apparatus, apparatus for Digital X-ray Radiogrammetry (DXR), rigid and flexible medical endoscopes, magnetic resonance imaging (MRI) apparatus for medical use, nuclear medicine diagnostic imaging apparatus.

Class 16

(5) Catalogues and handbooks; manuals; printed matter in the form of instructional and teaching material namely books and manual; papers namely newsletters.

(6) Catalogues and handbooks; manuals; printed matter in the form of instructional and teaching material namely books and manual; papers namely newsletters.

SERVICES

Class 35

(1) Entry, processing, control, storing, and preparation of information in databases namely management and compilation of computerised databases; data, file and register management namely computer file management, data processing; business management consultancy services; business organization consultancy; organization development consultancy services namely business management consultancy as well as development of processes for the analysis and the implementation of strategy plans and management projects; systemization of information into computer databases; consultancy services in the field of health care namely consultancy pertaining to cost management in the field of health care.

(2) Entry, processing, control, storing, and preparation of information in databases namely management and compilation of computerised databases; data, file and register management namely computer file management, data processing; business management consultancy services; business organization consultancy; organization development consultancy services namely business management consultancy as well as development of processes for the analysis and the implementation of strategy plans and management projects; systemization of information into computer databases; consultancy services in the field of health care namely consultancy pertaining to cost management in the field of health care.

Class 38

(3) Secure telecommunication services via wire and wireless, namely communications by means of computer, telephone, mobile phone, smart phone and radio namely email services, electronic mail services through wired and wireless access, paging services, wireless digital messaging services, paging by radio and telephone communications; computer aided transmission of data namely texts, sound, images namely medical, digital and photographic images, information via wire, wireless, microwave and satellite telecommunications networks namely secure satellite telephone transmission, secure recording, storage and subsequent transmission of voice and text messages by telephone, facsimile transmission and email services; operation of an electronic bulletin board in the field of medical technology, medical field, secure communication namely secure email services and secure telephone communications; IP-communication services (Internet Protocol) namely voice over internet protocol (VoIP) transmissions; providing user access to global computer networks; rental of phones; medical online services namely providing access to a medical database via a global information network.

(4) Secure telecommunication services via wire and wireless, namely communications by means of computer, telephone, mobile phone, smart phone and radio namely email services, electronic mail services through wired and wireless access, paging services, wireless digital messaging services, paging by radio and telephone communications; computer aided transmission of data namely texts, sound, images namely medical, digital and photographic images, information via wire, wireless, microwave and satellite telecommunications networks namely secure satellite telephone transmission, secure recording, storage and subsequent transmission of voice and text messages by telephone, facsimile transmission and email services; operation of an electronic bulletin board in the field of medical technology, medical field, secure communication namely secure email services and secure telephone communications; IP-communication services (Internet Protocol) namely voice over internet protocol (VoIP) transmissions; providing user access to global computer networks; rental of phones; medical online services namely providing access to a medical database via a global information network.

Class 41

(5) Education and instruction namely arranging and conducting of courses, conferences, workshops and seminars in the medical field, medical technology, secure communication namely secure email services and secure telephone communications fields; audio-visual display presentation services for educational purposes in the field of visualization of text, sound and digital and photographic images namely organizing and conducting of audio-visual presentations in the field of secure transmission and management of medical images in the field of x-ray, ultra sound, magnetic resonance imaging (MRI) and digital images; production and development of educational materials namely technical equipment for medical training namely radiological equipment for training purposes, touch sensitive medical screen enabling the users to perform simulated operations, general examinations and analysis of the human body; providing facilities for educational training namely rental of equipment for visualization of text, sound and digital and photographic images and e-learning namely rental of screens for medical purposes and touch sensitive electronic screens for medical purposes namely computer display screens, touch sensitive medical screen enabling the users to perform simulated operations, general examinations and analysis of the human body.

(6) Education and instruction namely arranging and conducting of courses, conferences, workshops and seminars in the medical field, medical technology, secure communication namely secure email services and secure telephone communications fields; audio-visual display presentation services for educational purposes in the field of visualization of text, sound and digital and photographic images namely organizing and conducting of audio-visual presentations in the field of secure transmission and management of medical images in the field of x-ray, ultra sound, magnetic resonance imaging (MRI) and digital images; production and development of educational materials namely technical equipment for medical training namely radiological equipment for training purposes, touch sensitive medical screen enabling the users to perform simulated operations, general examinations and analysis of the human body; providing facilities for educational training namely rental of equipment for visualization of text, sound and digital and photographic images and e-learning namely rental of screens for medical purposes and touch sensitive electronic screens for medical purposes namely computer display screens, touch sensitive medical screen enabling the users to perform simulated operations, general examinations and analysis of the human body.

Class 42

(7) Design and development of computer hardware and computer programs; software as a services (SAAS) provider in the field of software and electronic storage of medical records for medical technology, telecommunication and secure communication for secure email services and secure telephone communications, for conducting of audio-visual presentations in the field of secure transmission and archiving of medical images in the field of x-ray, ultra sound, magnetic resonance imaging (MRI) and digital images; installation of computer programs; computer programming; consultancy in the field of computer systems and computer programs; provision of computer programs namely rental of computer programs; rental of computers; server hosting; rental of web servers; electronic encryption, decryption and authentication services of data namely texts, sound, images namely medical, digital and photographic images; electronic computer storage namely electronic storage of medical records.

(8) Design and development of computer hardware and computer programs; software as a services (SAAS) provider in the field of software and electronic storage of medical records for medical technology, telecommunication and secure communication for secure email services and secure telephone communications, for conducting of audio-visual presentations in the field of secure transmission and archiving of medical images in the field of x-ray, ultra sound, magnetic resonance imaging (MRI) and digital images; installation of computer programs; computer programming; consultancy in the field of computer systems and computer programs; provision of computer programs namely rental of computer programs; rental of computers; server hosting; rental of web servers; electronic encryption, decryption and authentication services of data namely texts, sound, images namely medical, digital and photographic images; electronic computer storage namely electronic storage of medical records.

Class 44

(9) Medical services namely medical diagnostic services, medical imaging; providing diagnostic services namely medical diagnostic services; analysis and examination of medical images; online services for analysis and examination of medical images; X-ray services; digital image processing for medical purposes.

(10) Medical services namely medical diagnostic services, medical imaging; providing diagnostic services namely medical diagnostic services; analysis and examination of medical images; online services for analysis and examination of medical images; X-ray services; digital image processing for medical purposes.

CLAIMS

Used in CANADA since at least as early as January 2009 on goods (1), (3), (5) and on services (1), (3), (5), (7), (9). GOODS

(1) Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry, namely chemicals used in the manufacture of adhesive, chemical and chemical agents for use in the manufacture of plastic, chemicals for use in the manufacture of cosmetics, chemicals for use in the pharmaceuticals industry, photographic chemicals, chemicals for use in the automobiles, automotive, metalworking, textile, building, rubber, paints and coating industry; unprocessed artificial resins, unprocessed plastics; fertilizers; fire extinguishing compositions; catalysts for use in oil processing, for use in the manufacture of industrial chemicals, and in the manufacture of synthetics, rubbers and polymers; tempering and soldering preparations for metals; chemicals for preserving foodstuffs; tanning substances, namely leather tanning agents; adhesives used in the automotive, furniture, textile, plastics, and construction industry; plant fortifying preparations, chemical and biological preparations for stress management in plants, plant growth regulating preparations, chemical preparations for the treatment of seeds, surfactants for use in the oil and gas industry; natural or artificial chemicals to be used as sexual baits or agents to confuse insects, agricultural and horticultural inoculants, beneficial bacteria and soil supplements; chemicals with amphiphile characteristics used in the detergents industry; wetting agents compositions for use in the manufacture of cosmetics, inks and paints; agricultural biochemical and chemicals, horticultural chemicals, forestry chemicals.

(2) Anticorrosive, fire retardant, and water repellent paints, primer paint; varnishes, lacquers and glazes being decorative and protective surface coatings; colour pigments for use in the manufacture of automotive paints, household industrial paints, interior decorative paints, exterior paints, interior and exterior wood preservative dyes, varnishes, and paints; preservatives against rust and against deterioration of wood; colorants for use in the manufacture of paint, pharmaceuticals, toys made of plastics, food packaging made of plastic, and cosmetics; mordants for the textile industry; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists.

(3) Bleaching preparations and other substances for laundry use, namely bleach, soap, softener, anti-static agents, starch, detergent and preparations to reduce or avoid the need to iron clothing; cleaning, polishing, scouring and abrasive preparations in powder or liquid form for the cleaning of textile and fabric, namely laundry bleach, laundry detergents, laundry soaps, laundry stain removers, laundry starch; soaps, namely, toilet soaps, disinfectant soaps, and soaps for household use; perfumery, essential oils for personal use and for the manufacture of perfumes, cosmetics, hair lotions; dentifrices.

(4) Industrial oils and greases; fuel gas and gas for lighting, namely fuel and gas for lighters, lighting fuel; lubricants, namely all-purpose lubricants, automotive lubricants, drilling lubricants and industrial lubricants; dust absorbing, binding compositions for use in the manufacture of cosmetics, inks and paints; fuels, and illuminants, namely motor fuels, oil and gas, aviation fuel, diesel fuel, fuel for domestic heating, fuel oil, lamp fuels; candles and wicks for lighting.

(5) Pharmaceutical, veterinary and healthcare preparations, namely medicines under solid and liquid form for use against acne, headache, to lose weight, against rage, fleas, and ticks; medical nutritional supplements for general health and well-being ; vitamin preparations for medical purposes; sanitary preparations for medical purposes, namely vaccines for both human and veterinary use; dietetic substances adapted for medical use, namely vitamins and minerals; food for babies; plasters, materials for dressings, namely medical dressings, surgical dressings, wound dressings, gauze and bandages; material for stopping teeth and dental wax; disinfectants, namely all-purpose disinfectants, disinfectants for medical instruments; preparations for destroying vermin; pesticides, fungicides, herbicides, biological pest control agents; insecticides, pesticides, fungicides , fumigants for agricultural and horticultural use.

(6) Common metals and their alloys; metal building materials, namely metal cladding, metal linings, metal reinforcement material, steel frames, metal girders and pillars, aluminum sidings, slabs, strips , wires and sheets; transportable buildings of metal, namely greenhouses and sheds; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery, small items of metal hardware, namely clamps, screws, crampons, nails, pins, grates, hoods, grills, manholes and manholes covers; pipes and tubes of metal, namely metal gutter pipes, metal junctions for pipes.

(7) Machines for agricultural, horticultural and forestry purposes, machines for the chemical industry, machines for the beverage and food industry, machines for wood processing, machines for plastics processing, machines for metal working, machines for the textile industry, machines for automobile production, machines for paper processing, machines for paint processing, propulsion machines (excluding land vehicles), suction machines for industrial purposes, namely agricultural raper machines, calcining machines for chemical processing, chemical fiber drying machines, chemical fiber spinning machines, compression moulding machines, continuous metal casting machines, corrugated paperboard making machines, dip-dyeing machines, dissolving machines for chemical processing, emulsifying machines for chemical processing, extracting machines for chemical processing, extruding machines for metals, fiber blowing and scotching machines, fiber cutting machines, granulating machines for chemical processing, injection plastic molding machines, kneading machines for chemical processing, leather tanning machines, lumber testing machines, machines for dyeing textiles, metal compression testing machines, metal sawing machines, metal working machines, milling machines for metalworking, packaging machines, packaging machines for foods, packing machines, paint mixing machines, plastic testing machines, machines for chemical processing, shaping machines for metalworking, shearing machines for metalworking, sintering machines for chemical processing, sorting machines for chemical processing, spray damping machines for textile treatment, textile scotching machines, textile tentering machines, threading machines, compressors, namely air compressors, air compressors for vehicles, gas compressors; presses, namely drill presses, hydraulic presses for metalworking, industrial machine presses, plywood presses, printing presses, rotary presses for textiles, punching presses for metalworking, compressors as part as machines, motors and engines; pumps, namely, air pumps for automobiles, gas pumps, hydraulic pumps, pneumatic pumps, pumps as parts as machines, motors and engines, rotary pumps, screw pumps, vacuum pumps; petroleum refining machines, packaging machines; machine tools for the automotive industry, for the metalworking industry, for the textile industry, for the plastic industry, for the agricultural, horticultural and forestry industry, for the chemical industry, the food and beverages industry, the wood industry, metal working industry, paper and paint industry; engines (excluding engines for land vehicles), namely engines for industrial machinery; clutches and devices for power transmission (excluding those for land vehicles), namely clutches for industrial machinery, transmissions for industrial machinery, power transmission belts and gear for industrial machinery; agricultural equipment not operated by hand, namely agricultural aircraft spray nozzles, agricultural equipment for seeding, agricultural land fertilizing equipment; agricultural plows.

(8) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely voltmeters, electric batteries chargers, voltage regulators, flashlights, automotive batteries, electric batteries for pocket lamps, cameras, cellular phones, vehicles, hearing aids, watches, solar batteries, galvanic batteries, general purpose batteries, electrical storage batteries; apparatus for recording, transmission and reproduction of sound and images, namely audio and video cassette recorders, audio and video cassette players, televisions; magnetic data carriers, namely blank magnetic data carriers being hard discs and plastic cards with magnetic strip, identification cards with embedded chips, blank recording digital versatile discs; blank compact discs, blank DVDs and blank recording digital audio discs; cash registers, data processing equipment, namely computers; computer software, namely computer software for assisting developers in creating program code for use in multiple application programs, computer software for database management, computer software for image processing, computer software for oil and gas reservoir analysis, computer software for the collection of statistical production data for oil and gas field operations, computer software for use as a spreadsheet, computer software for use in cancer diagnosis, computer software for use in managing and controlling production, schedules, shipping schedules, purchase of materials, inventories and accounts, computer software for word processing, computer software for automate data warehousing, facilities management software to control building environmental access and security systems; factory automation software for integrating manufacturing machine operations, tracking problems and generating production reports; fire extinguishers; protective work gloves for protection against injury in the food industry, in the building industry, in the wood industry, chemical industry and metalworking industry; video games, sports helmets.

(9) Agricultural irrigation equipment; flexible pipes, not of metal being parts of basin plumbing installations, being parts of sink, bath and shower plumbing installations.

(10) Vehicles, namely all-terrain vehicles, armored vehicles, automatic guided vehicles, motor cars for transport on land and their constitutive parts; vehicle covers (shaped), motor car seats; apparatus for locomotion by land, air or water, namely trucks, vans, buses, motorboats, airplanes, helicopters, seaplanes, air-cushion vehicles, amphibious vehicles, scooter vehicles, sport utility vehicles and their constitutive parts; agricultural tractors.

(11) Precious metals and their alloys; jewelry, precious stones.

(12) Paper, cardboard and goods made from these materials, namely linerboard for corrugated cardboard, bulk paper, offset paper, honeycomb paper, corrugated paper, corrugated cardboard, filter paper; printed matter, namely calendars, posters, greeting cards, note cards, blank cards, magazines, books; book binding material, photographs; stationery, namely wrapping paper for books, adhesive tape dispenser, envelopes, diaries, scrapbooks, address books, letter paper; adhesives for stationery and household purposes; artists' materials, namely paint brushes, artists' paint, oil pastels, pastels, palettes for painters, canvas for painting; instructional and teaching material (except apparatus), namely manuals, printed forms and printed guides for conducting classes, seminars, workshops in the field of metalworking, chemical processing, manufacturing textile and plastics; plastic materials for packaging, namely tubing, casings, bags, envelopes, pouches and sheets; printers' type; printing blocks.

(13) Plastics in extruded form for use in manufacture; packing, stopping and insulating materials, namely plastic, feathers, polyester fibres, rubber.

(14) Leather and imitations of leather, animal skins, hides; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery.

(15) Building materials (non-metallic), namely adhesive mortar, asphalt, glass, stone, timber, marble, concrete, and plaster; non-metallic rigid pipes for building, namely cement mortar pipes, concrete pipes, plastic pipes; asphalt, pitch and bitumen; wood for covering existing floor.

(16) Furniture, namely, tables, beds, book shelves, chairs, armchairs, cupboards, benches, desks, sofas, recliners, electric and halogen lamps, buffets, wardrobes; sleeping mats.

(17) Brush-making materials, namely brush shafts, and bristle, natural wild boar hair, plastic fibre and filaments for use in tooth brushes; steelwool; unworked or semi-worked glass (except glass used in building); glassware, porcelain, namely decorative figurines and beverage glassware; earthenware; goods of plastics, namely beverage containers, containers for ice, food storage containers, garbage containers, packaging containers of plastic, plastic food storage containers, take-out food containers, thermal insulated containers for food or beverages.

(18) Yarns and threads, for textile use.

(19) Place mats of textile material; fabrics for horticultural use.

(20) Clothing, namely athletic clothing, baby clothing, business clothing, casual clothing, children's clothing, infant clothing, outdoor winter clothing, sports clothing; footwear, namely athletic footwear, beach footwear, bridal footwear, casual footwear, children's footwear, chemical exposure protective footwear, evening footwear, infant footwear, outdoor winter footwear, rain footwear, sports footwear ; headgear, namely hats, caps.

(21) Carpets, rugs; mats and matting, namely bath mats, door mats; linoleum, ceramic, carpet, marble, granite, and cork for covering existing floors; non-textile wall hangings.
